The ALTAIR® 5X Multigas Detector by MSA is a reliable and durable gas detection device designed for industrial safety. It can detect up to six gases at once, making it ideal for confined spaces, oil & gas, and chemical environments.

Built with advanced XCell® sensors, it provides fast and accurate readings while reducing maintenance needs. The device includes safety features like MotionAlert™ and InstantAlert™, ensuring quick response in emergencies.

Its rugged, IP65-rated design protects against dust and water, while the large display allows easy monitoring in all conditions.

Specification	Details
Product Name	ALTAIR® 5X Multigas Detector
Brand	MSA
Gas Detection	Up to 6 gases simultaneously
Sensor Type	XCell® Sensors
Display	High-contrast LCD
Alarm Types	Audible, Visual, Vibrating
Special Features	MotionAlert™, InstantAlert™
Battery Life	Up to 20 hours
Protection Rating	IP65
Operating Temperature	-20°C to +50°C
Housing Material	Rugged Polycarbonate
Weight	Approx. 453 g
Optional Features	PID Sensor for VOC detection
